

## November - Topic of the Month

*Thank You!*

On behalf of Compass and the Mille Lacs Lake Watershed Management Group we would like to thank people in the Mille Lacs Lake Watershed for their interest in conservation, stewardship, and having an active role in helping protect water quality throughout the watershed. Everyone contributing something, no matter how small, can add up to a big impact!

What can you do?

- **Become a Compass Member!** Compass membership starts with an interest in the ways that you can improve your shoreland property and make it lake friendly. A Compass Specialist will come and walk your property with you. They will have a conversation about the good things you are already doing and will help you identify additional ways you can help protect the lake in a FREE Shoreland Stewardship Plan! This is a great way to explore options!
- **Attend a Mille Lacs Lake Watershed Management Group Meeting!** Join Us! The group's mission is to improve and protect water quality in the Mille Lacs Lake Watershed by partnering with those who live, work and play here!
- **Talk to your neighbors!** Tell them about what you have discovered regarding different water quality topics!

People are working together to be better stewards of our water. Together we can make a difference!

To find out more about what you can do for Mille Lacs Lake and the watershed visit:
